## PROFESSIONAL SUMMARY

Boston University Computer Science graduate with hands-on experience building and deploying web applications using React, Next.js, TypeScript, Python, and Django. Developed API-driven applications, interactive games, and a public website for a small business. Programming-instruction and customer-facing experience supports clear technical communication, structured problem-solving, and user-focused development.

## EDUCATION

### Boston University

Bachelor of Arts in Computer Science

Boston, MA

2026

## TECHNICAL SKILLS

**Languages:** TypeScript, JavaScript, Python, Java, SQL, HTML, CSS

**Frameworks:** React, Next.js, Django, Tailwind CSS, Vite

**Tools & Platforms:** Git, GitHub, Vercel, Render, GitHub Pages, Vitest, Android Studio

**Additional:** MongoDB, REST API integration, responsive web design

## PROJECTS

### JSG Drip | *Next.js, TypeScript, Tailwind CSS, KicksDB API*

[Live](#) | [GitHub](#)

- Developed a responsive product-discovery application for sneakers, streetwear, and collectibles with search by name, brand, or SKU; product pages; rankings; filters; sorting; and shoe-size conversion.
- Implemented server-side data fetching, request retries, result deduplication, and empty/error handling for third-party marketplace data.

### Harry Potter Guessing Game | *React, TypeScript, Vite, REST API*

[Live](#) | [GitHub](#)

- Built and deployed a character-guessing game that retrieves and filters HP-API data, randomizes each target, limits players to five attempts, and prevents duplicate guesses.
- Organized gameplay into reusable React components for input, guess history, hints, character reveal, and game-state reset.

### NGBLLC Business Website | *HTML, CSS, JavaScript*

[Live](#) | [GitHub](#)

- Designed and maintained a responsive multi-page website for a construction business, including service information, project previews, trade-partner content, and clear calls to action.
- Worked directly with the owner to revise branding, content, and certification language, then published updates to the live site.

### Django Multi-Site Launcher | *Python, Django, HTML, CSS, Render*

[Live](#) | [GitHub](#)

- Built and deployed a Django directory organizing several web applications, including a social media-style app, restaurant demo, voter analytics display, and NBA 2K25 build planner.
- Applied Django views, templates, forms, models, and database-backed features across the included applications.

## EXPERIENCE

### Group Leader

UAU Cornerstone South Beach

Oct 2025 - Present

Staten Island, NY

- Lead a daily group of second- and third-grade students while maintaining structured routines, safety, and participation.
- Plan and facilitate STEM, literacy, art, recreation, and teamwork activities; adapt instructions to different learning needs.

### Bank Teller

Eastern Bank

May 2023 - Mar 2024

Allston, MA

- Processed deposits, withdrawals, checks, and account requests while following verification procedures and protecting confidential information.
- Explained banking products and services and answered customer questions while maintaining accuracy and professionalism.

### Member Service Coordinator

MIT Recreation

Oct 2021 - Feb 2023

Boston, MA

- Used Club Automation to manage memberships, payments, and account information and resolve member questions in person and by phone.

### Programming Teacher

International STEM Education Association

Jan 2021 - Sep 2021

Remote

- Taught Python and Java to students with varied ages and experience levels in remote classes.
- Created and adapted lessons and programming exercises based on class size, topic, and student needs.
